**Erratum**

In the article ‘Earlier HIV diagnosis – are mobile services the answer?’ by Van Schaik et al., which appeared on pp. 671 - 674 of the October *SAMJ*, there was an error in Table I. The two figures at the end of column ‘N’ under the heading ‘Hospital-based VCT’ should have been 4 and 12, not 8 and 24. We apologise to the authors for this error, which has been corrected on the web version of the article.
