Guide for Authors

(1) Manuscript, not more than 30 pages, should be typewritten using 1.5 spacing throughout, including tables, references, and footnotes. Assemble sections in the following order:
Title page (Separate Page)
Abstract with Keywords (3-6) and JEL Classification (Separate Page)
Text (Including Tables & Figures)
References
Appendix

(2) Two electronic copies of paper, in Microsoft Word and PDF Format, should be sent to the Assistant Editor: rdf@africagrowth.com

(3) The Title page should include the name(s) of the author(s), and institutional affiliation for each author. It should also include name, address, telephone number and email of the author responsible for correspondence, as well as the name, address of the author to whom requests for reprints should be sent.

(4) Each article should include an Abstract of not more than 100 words, beginning on a separate page. The text should also begin on a separate page. The first numbered section should follow the Abstract of the article.

Footnotes should be kept to a minimum and placed at the bottom of the page on which they are cited. Do not number author affiliations or acknowledgements of support or assistance.

(5) Tables and Figures should be placed on the page on which it is first referred to or as close as possible to such page and should be numbered sequentially with Arabic numerals. Each should be designed to fit on a page without undue compression. Authors may use a “landscape” page setup for tables. It should be as self-explanatory as possible, incorporating any necessary descriptive material in an unnumbered footnote.

Tables - The table number and heading are displayed above the table, in bold typed and left aligned.

Figures - All explanatory material should be included in the legend and not in the figure itself. The figure number and heading are displayed below the figure, in bold typed and left aligned.

(6) Headings are numbered and formatted as follows:
1. MAIN HEADING (bold)
   1.1 Sub Heading (bold)
   1.1.1 Minor Heading (italics)

(7) References: The Harvard method must be used, namely short references in the text and more detailed references arranged in alphabetical order at the end of the manuscript (follow the guidelines below).

References in the text: Omit the page numbers if the entire publication is referred to (Cane, 1980); or ... according to Cane (1987b). If a quotation is cited, (Althusan, 1985: 2).

The list of references should be in unnumbered alphabetical format and should begin on a new page.

Copyright
It is a condition of publication in the journal that authors assign copyright to the Africagrowth Institute. This ensures that requests from third parties to reproduce articles are handled efficiently and consistently and will also allow the article to be as widely disseminated as possible. In assigning copyright, authors may use their own material in other publications provided that the journal is acknowledged as the original place of publication.
