

## Sabinet African Journals Migration

### Important migration information and checklist:

- Handle links will remain the same. Please note that these links at this point in time still points to the articles on <http://reference.sabinet.co.za>. These links will be updated later in the year to point to the articles on <https://www.journals.co.za>. We will keep you informed when this is updated.
- Change any links referring to [http://reference.sabinet.co.za/sa\\_epublications](http://reference.sabinet.co.za/sa_epublications) to [www.journals.co.za](http://www.journals.co.za) in your libguides, on your intranet, your library webpage, student portals etc.  
e.g. [http://reference.sabinet.co.za/sa\\_epublications\\_a\\_z](http://reference.sabinet.co.za/sa_epublications_a_z) change to <https://www.journals.co.za/content/publications>
- Change any links to journal pages. Please visit <https://www.journals.co.za/librarian-resources> to get a list of the new URLs for specific journals.
- Update any links from your own Discovery Tools e.g. EBSCO Discovery and Millennium Encore. Our new Base URL is: <https://journals.co.za/openurl?>
- We will endeavour to seamlessly redirect all old SA ePublications links to our current platform (<http://www.journals.co.za>). Redirects to the new platform will be implemented early December 2016 and will be completed by the end of December 2016. Should you experience any problems as from January 2017 please immediately notify us.
- Off-campus access to Sabinet African Journals through EZproxy and Web Access Management (WAM) Forward Table.

**EZproxy:** Sabinet African Journals requires the following database stanza in

```
config.txt: Title Sabinet African Journals (Sabinet ePublications) (updated 20181010)
URL http://www.journals.co.za
H https://journals.co.za
H https://www.journals.co.za H
journals.co.za
H www.journals.co.za D
journals.co.za
```

Please note the database stanza was changed to remove the **J's** from the Host and Domain lines.

**WAM:** Please ADD/EDIT the Sabinet African Journals entry in the Forward Table. Please add **all** the host names below:

journals.co.za
www.journals.co.za
*.journals.co.za

Some links ([Your Subscribed Titles](#)) on the new journals platform will require Secure Socket Layers (SSL) to be activated on the institution's proxy server. The following URLs/domain names require a SSL certificate.

https://www.journals.co.za
https://journals.co.za

If the links on your institution's page haven't been changed to point to the new journal platform, you will need to add the old platform address to the WAM table as well:

reference.sabinet.co.za
*.sabinet.co.za

Documents property of Sabinet and not for distribution

This will ensure the current redirect from <http://reference.sabinet.co.za> to <https://www.journals.co.za> works correctly.

- Admin – Should you not have a username and password to access your statistics on Sabinet's Statistics Portal, please notify [Client Services](#). You will need these codes in order to get access to your usage statistics on <https://www.journals.co.za/>
  
- Training requirements – please contact [Client Services](#) should you need training or if you would like to arrange institutional training on the new platform.
